EDUCATION

Vanderbilt University

B.S. in Computer Science & Applied Mathematics | Minor: Engineering Management

GPA: 3.9/4.0

Nashville, TN

Expected May 2028

Relevant Coursework: Data Structures, Algorithms, Intermediate Software Design, Computer Architecture, Linear Algebra, Probability & Statistics, Differential Equations, Engineering Management Principles

TECHNICAL SKILLS

Languages: Java, C++, C Python, SQL, ASM, HTML

Automation & AI Tools: Claude Code, Microsoft Power Platform, Cassidy AI, Lovable, Gemini, Figma Make

Operating Systems & Environments: Linux/Unix, macOS, Databricks, IntelliJ IDEA, CLion, VS Code, Git/GitHub

PROFESSIONAL EXPERIENCE

ADM Investor Services

Chicago, IL

Software Development Intern

May 2026 – Present

- Engineered a machine learning pipeline in Databricks using SQL to extract and transform large-scale financial datasets into model-ready feature sets, supporting predictive analytics for trading operations environment.
- Applied statistical analysis (correlation, distribution testing, feature importance scoring) to guide iterative model development, ultimately deploying a Random Forest classifier with Scikit-learn and MLflow to forecast margin calls with production-ready accuracy.

SoftSnow.ai

Chicago, IL

AI Intern

May 2025 – June 2026

- Analyzed AI integration opportunities and designed automation workflows using Cassidy AI and Zapier to support data-driven decision-making across business units
- Earned Claude Certified Architect Certification, demonstrating expertise in AI workflow implementation and enterprise-scale AI deployment..

Citi Bank Early Identification Program

Chicago, IL

Quantitative analysis

March 2026 – April 2026

- Partnered with Citi mentor specializing in internal rates library to gain hands-on exposure to quantitative analysis tools; supplemented by professional sessions on business fundamentals and mock interview training

Beats by Dre Data Analytics

Culver City, CA

Extern: Qualitative and Quantitative Insights

November 2025 – February 2026

- Applied NLP tools (Gemini AI, ChatGPT) to extract qualitative consumer insights from product feedback, combining with quantitative statistical methods including linear regression and descriptive statistics.
- Identified actionable trends in wireless speaker consumer data to support product and marketing strategy decisions

Vanderbilt University, Professor Gerald Roth

Nashville, TN

Teacher Assistant, Program Design & Data Structures Courses

August 2025 – January 2026

- Graded programming assignments and exams for object-oriented courses, using debugger tools to analyze and provide feedback on student code across Java-based data structures implementations.

PROJECTS & LEADERSHIP

Vanderbilt Quantum Initiative

Nashville, TN

Project Manager

September 2025 – Present

- Implemented Quantum Amplitude Estimation in Qiskit to price European, American, and Asian options, achieving quadratic speedup over classical Monte Carlo and benchmarking against CRR binomial lattice models across configurable Black-Scholes-Merton parameters.
- Led full-stack development of a real-time quantum option pricing interface targeting IonQ Forte hardware, coordinating task delegation and delivery across a multidisciplinary team.]

Delta Delta Delta Fraternity

Nashville, TN

Director of Administration

September 2025 – Present

- Serve as primary liaison with national representatives by submitting required reports and communications.
- Developed, deployed, and maintained a chapter website in VS Code, using Git to manage version control and synchronize updates with the Lovable-hosted platform, creating a centralized hub for announcements, documents, and resources for a 200+ member organization.

Chippewa Ranch Camp

Eagle River, WI

Program Director, Activity Director, and Counselor

June 2021 – August 2025

- Manged evening programs for 300+ campers and counselors, overseeing staffing, budget, and supply coordination

Interests: Food Network, 1000+ Piece Puzzles, Country Music, Nature Walks, College Basketball
