EDUCATION

Vanderbilt University

B.S. in Computer Science & Applied Mathematics | Minor: Engineering Management

GPA: 3.9/4.0

Relevant Coursework: Data Structures, Algorithms, Intermediate Software Design, Computer Architecture, Linear Algebra, Probability & Statistics, Differential Equations, Engineering Management Principles

Nashville, TN

Expected May 2028

TECHNICAL SKILLS

Languages: Python, SQL, Java, C++, C, ASM, HTML

Data & AI Tools: Databricks, AWS, Scikit-learn, Claude Code, ChatGPT, Gemini, Microsoft Power Platform, Cassidy AI, Lovable, Figma Make

Operating Systems & Environments: Linux/Unix, macOS, IntelliJ IDEA, CLion, VS Code, Git/GitHub

PROFESSIONAL EXPERIENCE

Vanderbilt University - Dept. of Computer Science

Teacher Assistant - Program Design & Data Structures Courses

Nashville, TN

August 2025 – Present

- Graded assignments and exams for ~100 students across object-oriented courses (11 assignments, 3 exams), using debugger tools to analyze student code and communicate technical feedback across Java-based data structures implementations.

ADM Investor Services

Software Development Intern

Chicago, IL

May 2026 – August 2026

- Built an end-to-end ML pipeline in Databricks (AWS) using SQL, running statistical experiments (correlation, distribution testing, feature importance) on hundreds of thousands of rows of 6-month financial data to engineer model-ready features
- Deployed three production models (2 Random Forest, 1 Gradient Boosting) with Scikit-learn and MLflow, achieving 96% accuracy on historical validation data to improve margin call forecasting

SoftSnow.ai

AI Intern

Chicago, IL

May 2025 – June 2026

- Designed and deployed AI-driven automation workflows using Cassidy AI and Zapier, evaluating integration opportunities to automate processes and enhance data-driven decision-making across business units.
- Earned Claude Certified Architect Certification, building hands-on expertise in LLM workflow implementation, prompt engineering, CI/CD pipelines, agent orchestration, and enterprise-scale AI deployment.

Citi Bank Early Identification Program

Quantitative analysis

New York, NY

March 2026 – April 2026

- Partnered with a Citi mentor specializing in the internal rates library, gaining hands-on exposure to quantitative analysis tools and applied problem-solving; supplemented by professional sessions on business fundamentals and mock interview training.

Beats by Dre Data Analytics

Extern: Qualitative and Quantitative Insights

Culver City, CA

November 2025 – February 2026

- Extracted qualitative insights from 5,000 survey responses using NLP tools (Gemini, ChatGPT), combining results with linear regression and descriptive statistics.
- Translated analytical findings into actionable trends in wireless speaker consumer data, communicating recommendations to stakeholders to support product and marketing strategy decisions.

PROJECTS & LEADERSHIP

Vanderbilt Quantum Initiative

Project Manager

Nashville, TN

September 2025 – Present

- Implemented Quantum Amplitude Estimation in Qiskit to price options, achieving quadratic speedup over Monte Carlo at 95% confidence versus CRR lattice models.
- Led full-stack, end-to-end development of a real-time quantum option pricing model and interface targeting IonQ Forte hardware, coordinating task delegation and delivery across a 5-person multidisciplinary agile team.

Delta Delta Delta Fraternity

Director of Administration

Nashville, TN

September 2025 – May 2026

- Serve as primary liaison with national representatives, submitting required reports and communications.
- Developed and deployed a chapter website in VS Code, using Git to manage version control and synchronize updates with the Lovable-hosted platform, creating a centralized hub for announcements, documents, and resources for a 200+ member organization.

Chippewa Ranch Camp

Program director, Activity Director, and Counselor

Eagle River, WI

June 2021 – August 2025

- Managed evening programs for 200+ campers, overseeing staffing of 100 counselors and supply coordination.

Interests: Food Network, 1000+ Piece Puzzles, Country Music, Nature Walks, College Basketball
